# Hazard Sensors

Fires and floods can result in costly damages to your home. Our hazard sensors detect danger before any damage is done.

## Temperature Sensor

Triggers an alarm if your home drops below 41°F—preventing pipes from freezing or bursting. You can also set an upper limit to protect pets. [Learn more.](#)

## The Keypad

Entirely wireless and smash-safe. Arm and disarm in one click. If an intruder smashes the Keypad, we still get the alert so we can dispatch police. You can even customize the Panic Button to send a silent alarm. [Learn more.](#)

## SimpliSafe App

Arm, disarm and protect any time anywhere with the SimpliSafe app.

## Key Fob

Works just like your car's key fob. Arm and disarm your system with a push of a button. In case of an emergency, press the Panic Button to alert our monitoring center. [Learn more.](#)
